STAKEHOLDER DIALOGUES

What does the future of fruits
and vegetables look like?

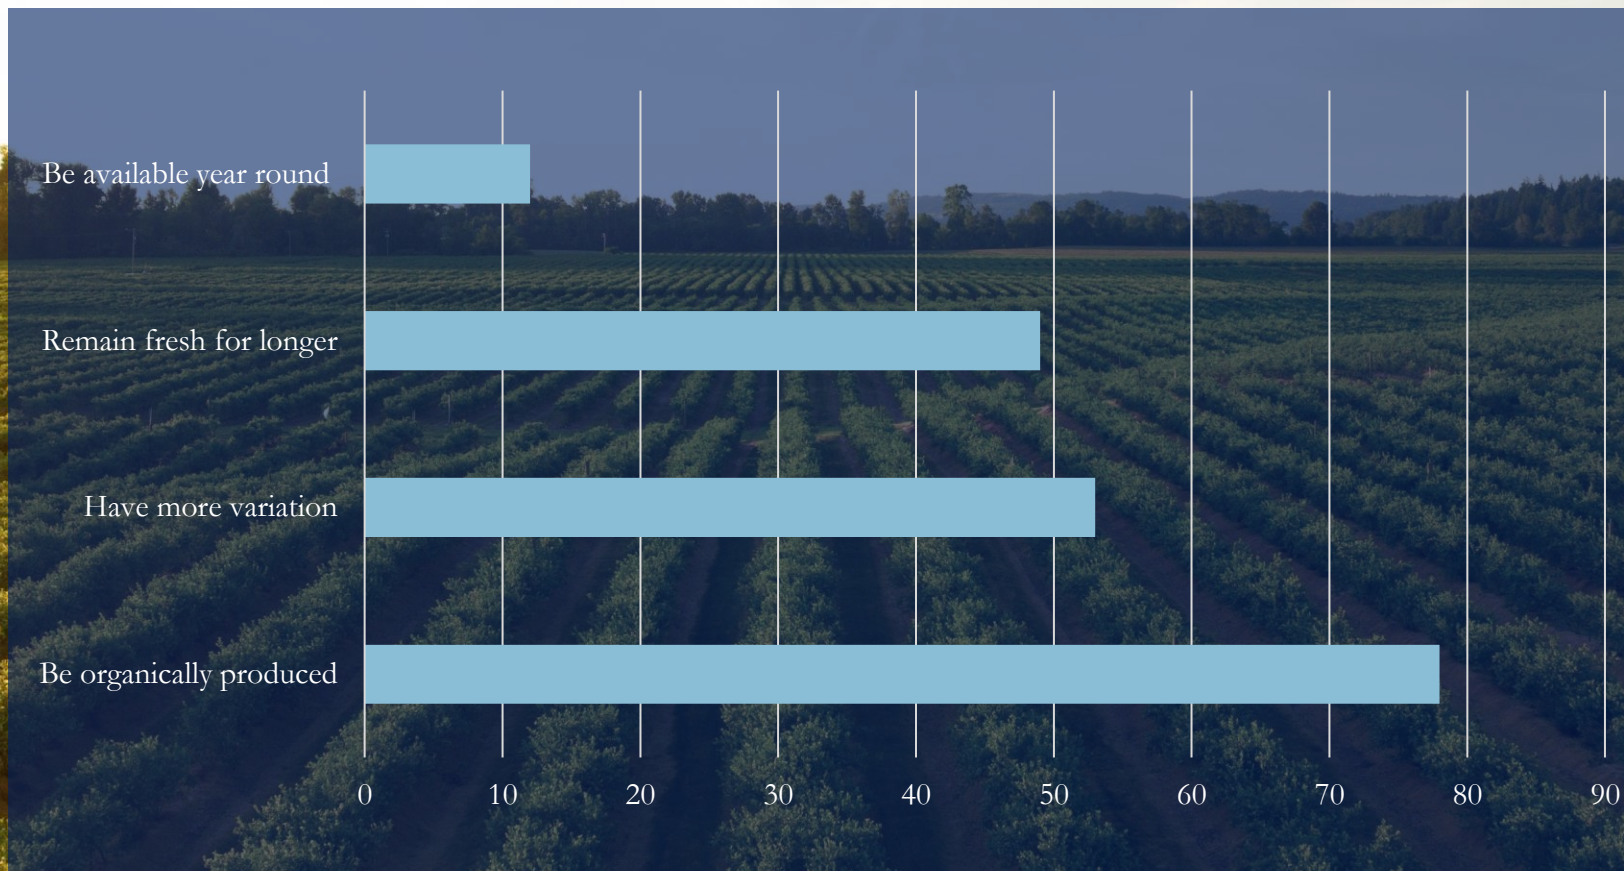

Future of Food

Future of Food

Future of Food

I want my fruits/vegetables to...

A close-up photograph of a person's hands holding a large, ripe yellow corn cob. The corn is still partially covered by its green husk, and some silks are visible at the base. The person is wearing a light blue long-sleeved shirt. The background is a blurred field of green corn plants, suggesting a farm or agricultural setting. The lighting is bright, indicating it's daytime.

Organically produced?

What about 'more variation'?

Exciting

If you could improve a vegetable, what would you do?

If you could improve a vegetable or fruit, what would you do?

Longer
shelf life

Visual
ripeness
indication

Less
vulnerable
to
bruising

Ideas

Smaller sizes

Salt resistant vegetables and under water crops

The ability to
stop the
ripening process
at home

More local production

Home grown

Changing fruits & vegetables

Larger
vegetables

Longer
and
smaller
vegetables

Bite sized
fruit

‘Please
stop
changing
them’

What does the youth think about the future?

More local production

More 'organic' production

Less food waste

More innovation

More excitement
