helping agrifood biotech startups
from concept to viable business

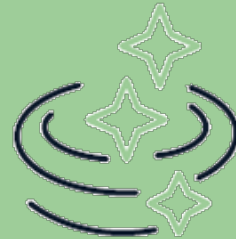

biotech incubation ecosystem

biotope^{by VIB} stimulates international biotech entrepreneurs to craft their ideas and ambitions into sustainable, impactful investment-ready businesses.

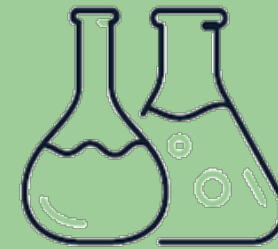

Personalised support

- team & business
- biotechnology & IP

€ 250K financing for

- technology derisking
- value creation

High-tech facilities to bring the innovation out of the lab and close to the market

Our aim is to **jumpstart new generations of biotech startups**, getting them **seed stage ready** with the potential to succeed globally.

biotope by VIB

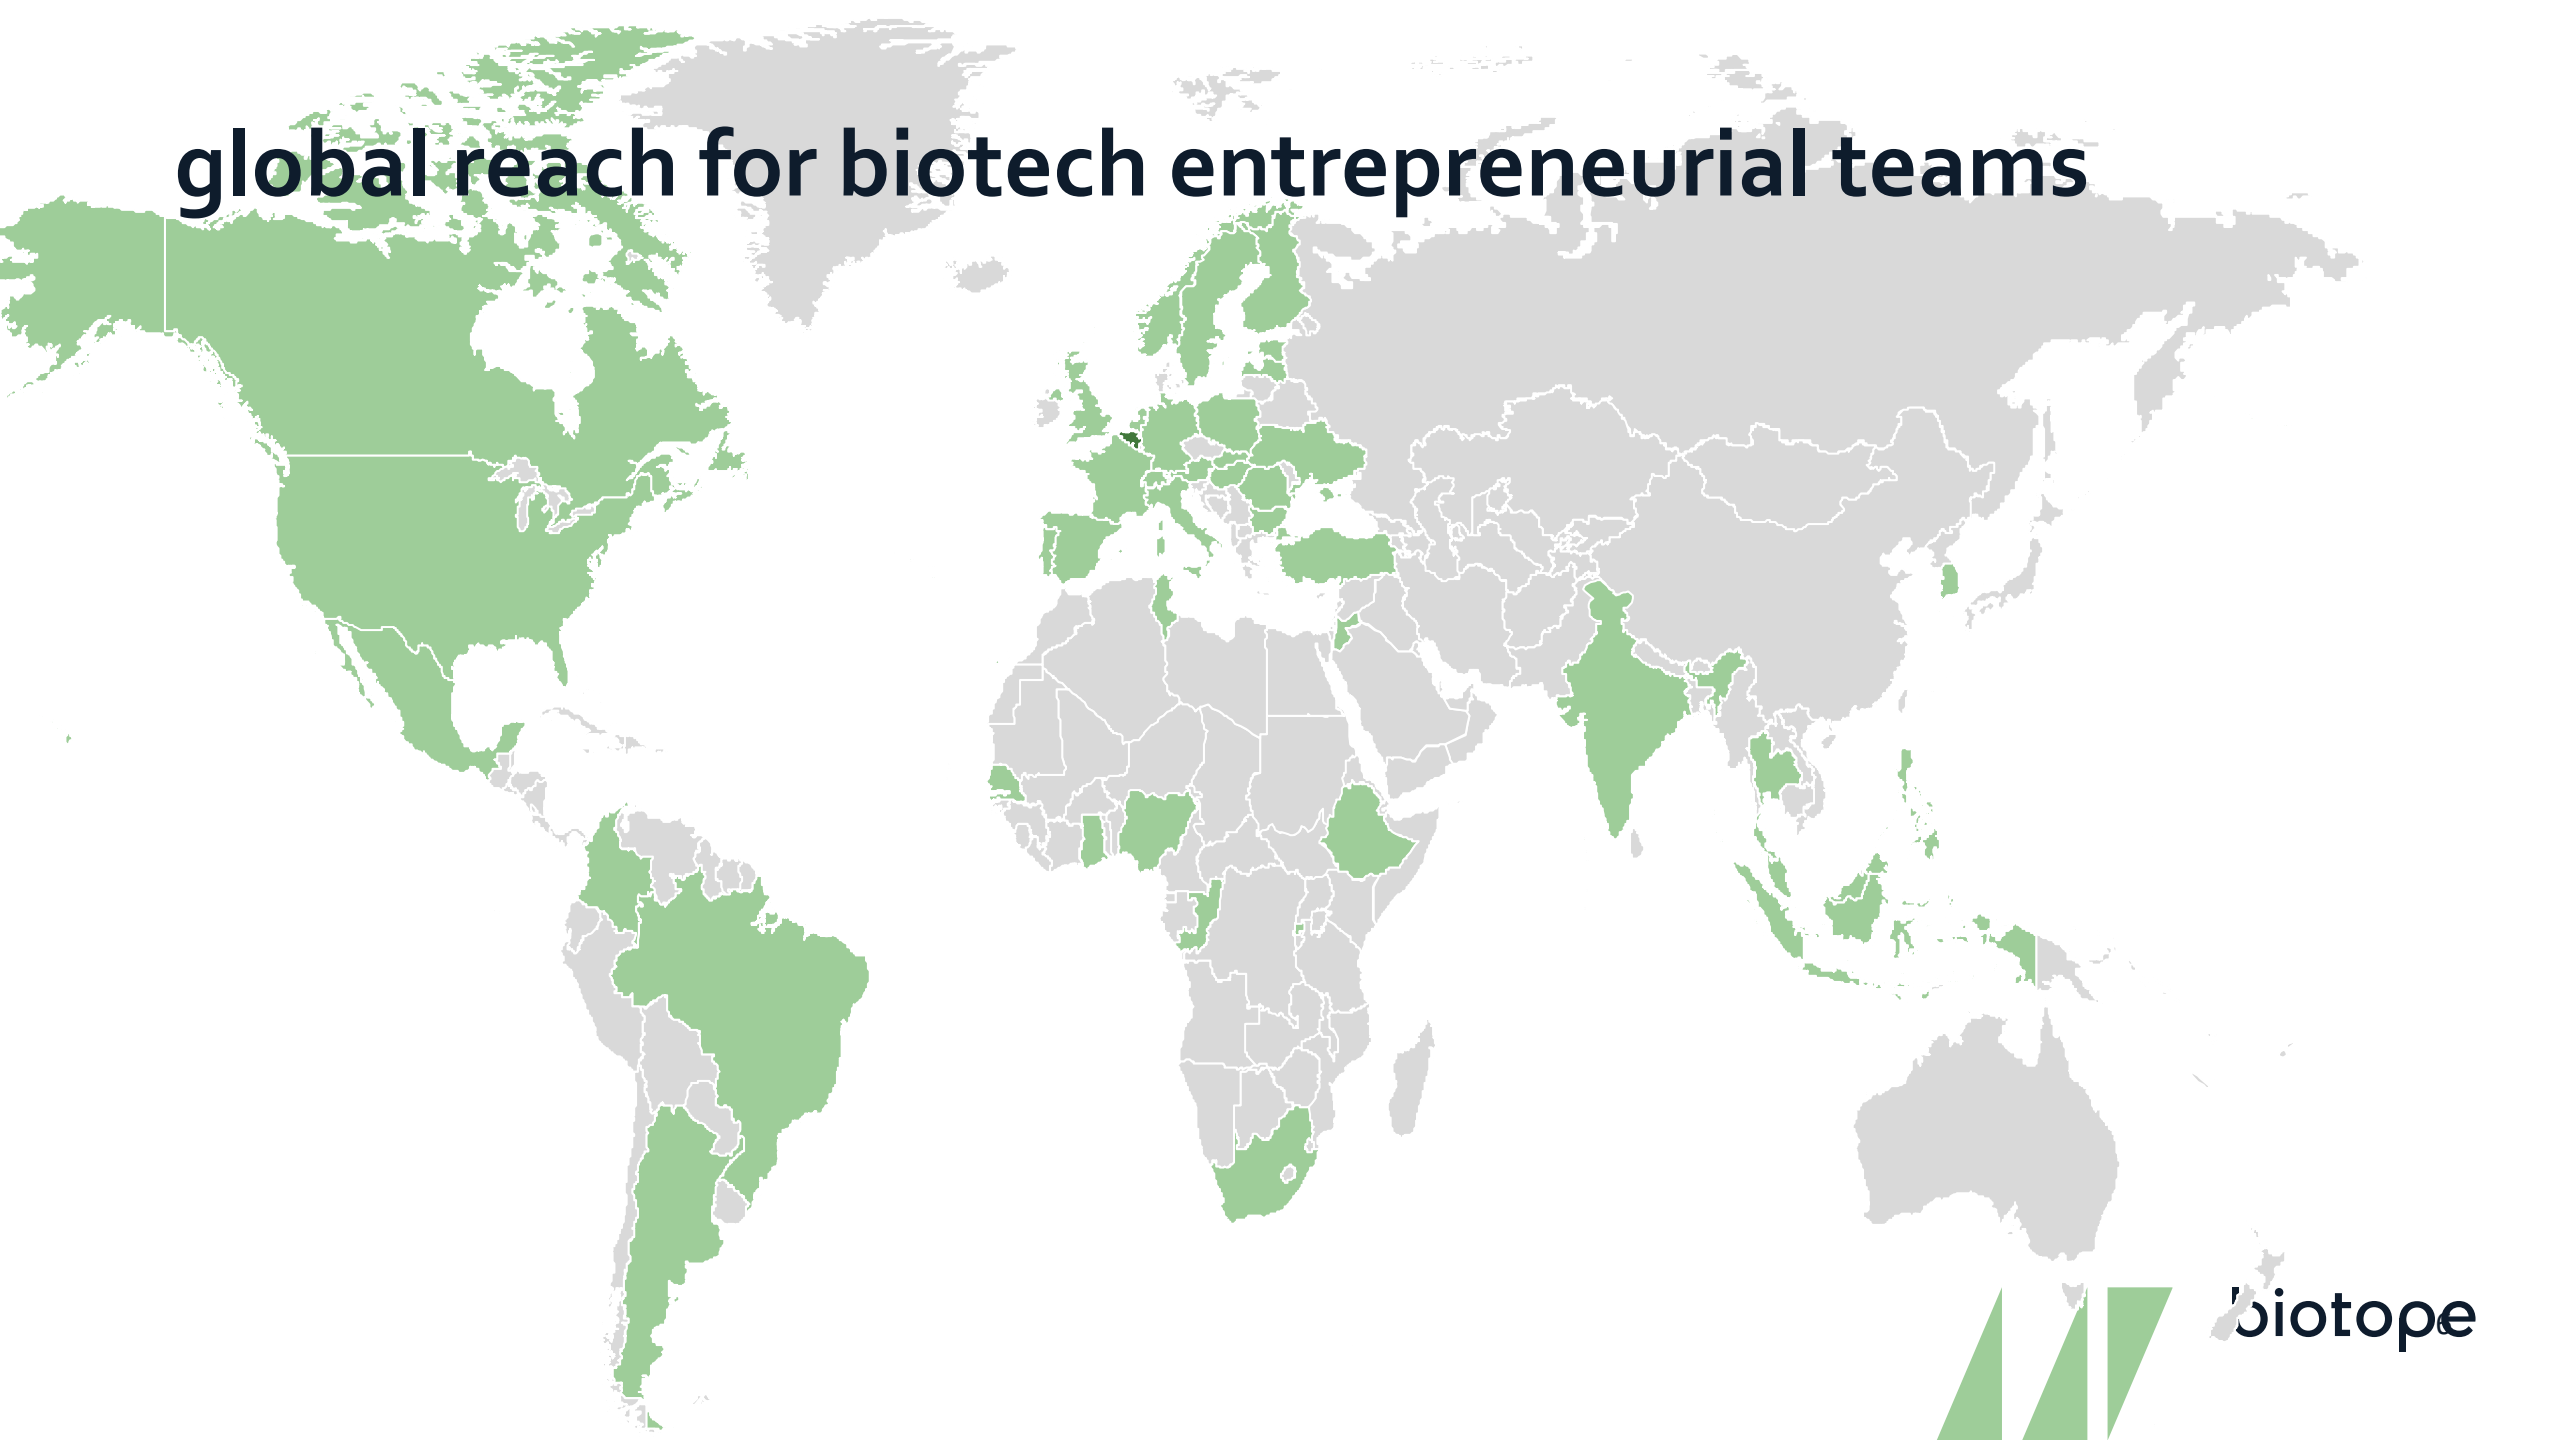

Launch of Biotope Ventures empowers young biotech startups in the biotope by VIB program

“The strength of biotope lies in the combination of its high-quality biotech incubator program with a dedicated fund.”

- Annick Verween, biotope manager

startups

biotope

biotope portfolio startups

Bolder Foods (B)

Less cow, more pleasure for everyone

Probitat (Fi)

Food startup based on Plant-based fermentation

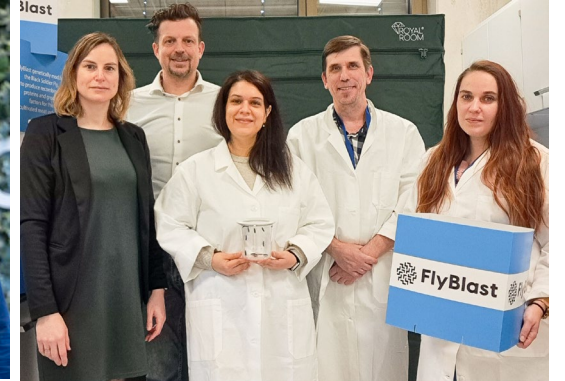

Amphistar (B)

Making biosurfactants mainstream

B'Zeos (CH-SP)

Unlocking the power of seaweed to replace plastic

Flyblast (B)

On a mission to solve meat by black soldier fly

Pestevne (SL-LV)

Lipid-targeting biopesticides with resistance stability delivered by plants

Elogium (SL-LV)

Probiotic solutions for broiler producers

N-Fix (B)

Resilient microbials manufactured from biomass residues

CDotBio (UK)

Flexible methods for crop transformation using gene loaded carbon nanodots

PFX biotech (PT)

Precision fermentation to produce human milk proteins
